

Summer Gardens

Window Cleaning

Window cleaning will take place on the next sunny and wind free days following August 14th.

Ventilation Cleaning

Please be advised that Vent Care Inc. has been contracted to clean the dryer branch ducting for all the condo units as well as all kitchen and bathroom exhaust branch ductwork. They will start Tuesday, September 12th at 9am starting on the 21st floor and working down to ground level over an approximate 2 week period.

Dryer Branch Ducting:

- Disconnect duct from dryer
- Connect dryer to suction hose
- Blow compressed air through lint trap (Air Wash Machine)
- Connect to suction to branch ducting
- Clean using compressed air rods reverse into suction and blow into shaft

Kitchen and Bathroom Exhaust:

- Remove all ceiling grills and disconnect range hood ducting
- Connect each vet to suction hose individually
- Clean all branch ductwork using a combination of forward and reverse compressed air cleaning rods. Reverse into tent vac and blow into shafts

- Connect to all exhaust duct shafts and put under sufficient suction
- Clean using compressed air rods and skips all Exhaust Duct shafts

Please try to have affected areas accessible, if not they will be unable to clean the vent(s).

If you are unable to be home, please advise security if Charles has permission to enter the unit.
