The rules about waste disposal in condominiums are changing

As of November 1, 2021, only clear bags are permitted in the “garbage” bin.

- The waste management workers will refuse black bags or bags containing items that should have been placed in a different bin and leave them in our garbage room for us to deal with.
- Eventually there will be tickets for violations.

It is important for everyone to comply with the recycling and garbage rules. A summary of those rules is attached as well as a copy of HRM’s Condo Guide.
